

# STEM OPTIONAL PRACTICAL TRAINING (OPT)

## WHAT IS STEM OPT?

Practical work experience authorization that extends OPT for another 24 months for those who have earned a degree in a field included on the Department of Homeland Security (DHS) list of Science, Technology, Engineering, and Mathematics (STEM) fields. DHS grants STEM OPT extensions to eligible F-1 students once per degree level (i.e., bachelor's, master's or doctorate). A student may participate twice in the OPT extension over the course of their academic career.

## WHO IS ELIGIBLE FOR THE STEM OPT?

The student must meet all the below criteria for STEM OPT eligibility:

- An F-1 student who has been approved for and is currently working in post-completion OPT
- Working in a job directly related to their field of study
- Has earned a bachelor's degree or higher degree in a field included on the DHS list of [fields](#) from an SEVP-certified school that is [accredited](#) (from an accrediting agency recognized by [the U.S. Department of Education](#)) at the time the student submits their STEM OPT extension application to USCIS
- Are working for or will join an employer that is enrolled in the U.S. Government's E-Verify program
- Work a minimum of 20 hours per week per employer
- Employer must provide the student with formal training and learning objectives.

**NOTE:** Duties, hours, and compensation, must be commensurate with terms and conditions applicable to the employer's similarly situated U.S. workers in the area of employment.

## IS MY DEGREE IN A STEM FIELD?

DHS maintains the STEM Designated Degree Program list that meets the extension requirement within the DHS regulatory definition of "STEM field". This list contains the Classification of Instructional Program (CIP) code for each STEM degree. The CIP code consisting of six digits is listed next to your MAJOR.

Under certain circumstances, an F-1 student may use a prior STEM degree from a currently accredited SEVP-certified school to fulfill this eligibility requirement. To use a prior degree to qualify for the STEM OPT extension, the F-1 student must:

- Have received their most recent degree (which does not need to be -related) from a currently accredited Student and Exchange Visitor Program (SEVP)-certified school (<https://studyinthestates.dhs.gov/school-search>).
- Have received their prior, qualifying STEM degree\* (at the bachelor's level or higher) within 10 years of applying for the STEM OPT extension with United State Citizenship and Immigration Services (USCIS).
- The qualifying STEM degree needs to be on DHS's [Designated Degree Program List](#) at the time the student submits their application for the STEM OPT extension, rather than at the time that the student received the degree.

## WHAT IS E-VERIFY?

E-Verify is a database system administered by DHS in partnership with the Social Security Administration. It allows participating employers to verify the employment eligibility of newly hired employees. For more information, see DHS E-Verify <http://www.dhs.gov/e-verify>

## Can STEM OPT Students Use Staffing or Temporary Agencies?

During the STEM OPT period, self-employment or employment with a staffing agency will **NOT** qualify for STEM OPT Extension. Temporary or staffing agencies cannot complete and sign the [Form I-983, "Training Plan for STEM OPT Students."](#) Only the E-verified employer that provides the actual training relevant to the student's qualifying STEM degree is authorized to sign and complete the Form I-983.

The "Official with Signatory Authority" for a student's Form I-983 must meet the following criteria:

- Be employed by the organization providing the training.
- Be familiar with the STEM OPT student's goals and performance.
- Have the authority to affirm that the information on the Form I-983 is true and correct.

### **WHEN SHOULD ONE APPLY FOR THE STEM OPT?**

USCIS must receive and receipt your STEM OPT application package before the expiration of current post-completion OPT. Students may apply for STEM OPT no sooner than 90 days before the post-completion OPT expiration.

### **WHAT HAPPENS WHILE THE APPLICATION IS PENDING APPROVAL?**

Once the STEM OPT application is received by USCIS, the student is authorized to continue employment for up to 180 days after the expiration of the student's post-completion OPT or adjudication of STEM OPT application.

### **REPORTING REQUIREMENTS DURING STEM OPT**

To maintain legal F-1 status, a STEM OPT student must regularly check-in with their DSO (OISS Advisor) throughout the duration of the extension to validate Student and Exchange Visitor Information System (SEVIS) information and report changes made to the student's training plan or change of employers. For details on reporting requirements, see STEM OPT HUB <https://studyinthestates.dhs.gov/students-stem-opt-reporting-requirements>

### **STARTING AND ENDING DATES**

The 24-month STEM OPT extension period begins on the day following the expiration of post-completion OPT. The end date is 24 months later. For exact start and end dates, see STEM OPT EAD.

## TRAVEL DURING STEM OPT

### Reentering U.S. while STEM OPT is pending approval:

Traveling while STEM OPT is pending should be undertaken with caution. You cannot renew your F-1 visa, unless you have a valid EAD. USCIS may send you a Request For Evidence (RFE) while you are away. You must respond to the RFE in a timely manner to avoid denial of STEM OPT request. If USCIS approves your OPT application, you will be expected to have your EAD in-hand to re-enter the United States.

**Reentering U.S. after STEM OPT is approved:**

You will need the following original documents to reenter the U.S. during the STEM OPT period:

- Valid passport (make sure it is valid at least 6 months into the future at time of re-entry)
- Valid F-1 visa stamp (You cannot renew your F-1 visa, unless you have a valid EAD)
- I-20 endorsed for STEM OPT with a travel signature less than 6-months old
- Unexpired STEM OPT EAD card
- Confirmation of employment letter from your U.S. E-Verified employer

**NOTE:** If you have an expired F-1 visa and you plan to make a short trip to Canada, Mexico, or adjacent (Caribbean) islands, visit our page on Automatic Revalidation: [http://www.oiss.msu.edu/students\\_travel\\_autorevalid.php](http://www.oiss.msu.edu/students_travel_autorevalid.php)

**ENDING YOUR STEM OPT**

Your F-1 status remains valid until 60 days after the expiration of your EAD card. During this 60-day grace period, you cannot work; however, you may legally stay in the U.S to prepare for departure. If you depart the U.S. during the 60-day grace period, you are no longer eligible to reenter under your F-1 visa status.

- If you plan to return home after the end of your STEM OPT, make sure that you depart the U.S. before the end of your 60-day grace period.
- If you plan to change your visa status, we recommend you begin this process before your STEM OPT expires.
- If you plan to start a new degree program at another college or university, you must contact OISS regarding the transfer of your SEVIS record. Transfers must be done before the end of the 60-day grace period.
